## Hellebore 'Ashwood Garden Hybrids' Large Plants

- 3 year old container grown hellebore plants in bud or flower will be available from January to early March 2020, unless otherwise stated.
- Your plants will be hand-picked by our hellebore breeder and his skilled team. We do our very best to match the colours and forms as depicted, however these plants are grown from hand pollinated seed so each plant is slightly different.
- Despatch will begin in mid January until around mid-March subject to availability. Not all plants will flower at the same time so please be patient as we may have to wait a while to collect all of your order.
